

LivaNova

LivaNova transforms lives with products and therapies for the head and heart. Their product portfolio and pipeline includes advanced circulatory support, cardiopulmonary, drug-resistant epilepsy and obstructive sleep apnea. They have worldwide presence in more than 100 countries.

In 2007, LivaNova closed their plastic injection molding operation and clean room in their Colorado facility in order to focus on their core competency of manufacturing Perfusion Tubing Systems. They also needed to right-size their EHS support level which included specific site and industry-support to accompany their evolving needs.
