

EHS GATEWAY: SDS MANAGER

The EHS Gateway, our robust cloud-based platform, is our all-in-one system designed to make it easier for organizations to care for their employees, protect the environment and grow their business. Our latest application, The SDS Manager, is a revolutionized way to digitally store, manage and provide access to your facility's chemical Safety Data Sheets (SDS).

Online Safety Data Sheet access for standard indexing, including the following benefits:

- Initial Setup and User training – client provided pdf copies
- Access to Global SDS Library
- USC Integration for Environmental Reporting
- Simple Search, View, Print and Archive SDS
- Mobile App (iOS and Android) access
- USC Integration for Health & Safety Trainings and Programs
- SDS Automatic Update Service
- Collection Management Toolset
- Backups, E-Binder & Kiosk Access
- Print Secondary Container Labels with a QR Code
- SDS Submissions & Bulk Imports
- Proprietary SDS Flagging
- Material History and Audit Trail
- Filter & Update Toolset
- Localization User Interface - 23 Languages
- Support from EHSGateway@uscompliance.com

Data Capture Fields

- Standard Identifying Fields - Product Name, Manufacturer, Manufacturer Part number(s), Revision Date, Language, Document format
