

NFPA 70E Electrical Safety Training

NFPA 70E, Standard for Electrical Safety in the Workplace, is an industry-recognized safety standard used by employers and employees in compliance with OSHA 1910 Subpart S and OSHA 1926 Subpart K. Hellman & Associates' 4-hour low voltage course is based on the most current NFPA 70E Standard (2024 Edition) and helps you to meet the OSHA regulations and requirements as well as implement safe work practices into daily and non-routine tasks. The classroom instruction includes presentation handouts and a quiz to ensure comprehension of the training materials. A course completion certificate is provided for each employee that completes the training requirements.

Next In-Person Class:

May 15 2025, 8-12pm

Hellman & Associates Office
11913 W I-70 Frontage Rd N
Wheat Ridge Colorado 80033
